

Quality Assurance Report

Atlantic® ReadyDisk C18

Part Number: 47-6005

Batch Number: 22097

Physical Description:

Disk Appearance

White ridged disk

Disk Diameter

47 mm

Disk Thickness

Pass

Disk Composition

Glass fiber embedded with C18-modified silica

Particle Characterization:

Average Particle Size (µm)

52

Pore Size (Å)

67

Disk Recovery Tests:

Analytes
